RECYCLING CENTRE FIRE BLANKET DISMANTLING CENTRE FIRE BLANKET

CONTROLS FIRE IN ANY CAR IN SECONDS

HANDLES FIRE IN ELECTRIC & FOSSIL FUEL CARS

REUSABLE - EASY TO DEPLOY

SUITABLE FOR SUVs AND LAND CRUISERS

CAN BE STORED IN SMART BAG OR WALL MOUNTED

SIZE: 6 X 8m FIRST RESPONDER - €990 PROFESSIONAL USER - €1990 Ex VAT & Ex Shipping

HOW TO USE:

1. Place the fire blanket on the ground in front or back of the car and roll it out.
2. 2 people grab the handles and pull the fire blanket safely over the car in one continuous movement.
3. Make sure the fire blanket is tight to the ground. Wait at least 20 minutes and let professional firefighters remove the blanket.

FIRE IN ELECTRIC CARS:

If you hear a strong fuzz sound about every 2-15 seconds, you have thermal runaway. Leave the fire blanket on until the sound stops.

Thermal runaway is a small fire that goes from cell to cell. The fire blanket will prevent the small fire from spreading elsewhere in the car.

This also functions as a Quarantine area for Electric Vehicles prior to battery discharge/removal.

FIRE IN SKIPS

USE BLANKETS

LESS CONTAMINATED WATER

STOPS SMOKE & FUMES

BRIDGEHILL FIRE BLANKET IN USE

CAR DISPOSAL SITE

The images below demonstrate how our Bridgehill Car Fire Blanket is used to control a Car Fire in a car disposal site. The fire blanket – used by 2 people - contained the fire, fumes and smoke within seconds.

See link for full demonstration: <https://www.facebook.com/Bridgehillfire/videos/464948850831202/>

The final image shows that the fire blanket has already been used before and it still having the same effective result at putting the fire out.

The Bridgehill Car Fire Blanket can be used on fossil fuel cars, electric cars, SUVs and commercial vehicles.

RENAULT ZOE CAR - FIRE EXTINGUISHED WITH FIRE BLANKET

Firefighters used the Bridgehill Car Fire Blanket to control the fire, fumes & smoke. No water - No foam – No mess.
