

Bridgehill Partners with Norwegian Volkswagen Norge, Audi Norge, Škoda Group, Seat and CUPRA importer, Harald A. Møller AS in 2023!

Electric vehicles have become more and more common, and the Norwegian importer Harald A. Møller has for several years worked in co-operation with their dealer network to promote the e-mobility agenda. A major part of promoting e-mobility is related to safety. The entire dealer network working with importer Harald A. Møller are certified Battery Competence Centres, with the qualification needed to repair High Voltage-Batteries.

EQUIPPED WITH BRIDGEHILL FIRE BLANKETS

- At Harald A. Møller we want to meet the future in the safest possible way. And obviously we are expected to have the best safety tools available, if a situation occurs within our network, says Andreas Tallberg, Head of the Technical department at Harald A. Møller AS.

Each of the Dealers in the network will be equipped with at least one Bridgehill car fire blanket as a standard. Additional car fire blankets and lithium fire blankets will be supplemented based on the needs and demands for each dealer. As a part of the partnership, a safety course will be held at all work- and repair shops. This to ensure that everyone knows what to do if an emergency occurs.
